BARCOCK FIRE EXTINGUISHER. - On Saturday last the agents of the above wonderful apparatus, Mosses. Green, Macfaria e & Co., of this city, gave a public exhibition on the Esplanade, of the effitioney of the Babesck Fire Extinguisher, which the naturalization laws of the catter do not reach was in all respects a successful and highly satisfactory result. HIGHLY PRAISEVORTHY .- We learn from a reliable source, that last week the Chinese resider to of this city contributed and forwarded to San Fran cisco the sum of \$6,000 for the purpose of purchasii log a first-class Steam Fire Engine, for the Fire Department of Honolulu. This generous act on the part of the Chinese residents speaks well for them and shows that they are not the sordid people that mir enemies represent them to be. He suffered great agony, during his period of confinement to his bed; but bore his sufferings with heroic courage. He was an industrious good citizen, whose death is lamented by his mrades of the Fire Company to which he belonged, as well as by those who knew him in private life. Everything that science, skill and

Before the people of the United States can prohibit the intro duction of Chinese, into their country, they will have to change their National Constitution. Congress can of course pass restrictive laws, because the Constitution requires Congress to pass laws regulating the naturalization of foreigners, but John Chinaman does not wish to be manufactured into a full fledged republican, or any other shape than a full size Chinee-pigtail and all. Therefore his case. There is room enough on these islands invite them to come; the only condition they seem to impose is, that those Chinamea who come here in fature, shall bring their own wahines with them. Let them do this, and all will be well. This does not seem to be a hard condition; nor one that can not easily be compiled with. The Chinese wahines was resembles.
